The city of Lugo and Local Attractions

The city of Lugo is located in the inland of Ravenna not far from the Adriatic Sea and from the hills of the Romagna Appenines between cities of Bologna and Ravenna. Seen from the air Lugo looks like an aircraft. This might be fortuitous, but it's also extremely appropriate given that Francesco Baracca, the earliest and most important hero of Italian aviation, was born here.

Thanks to its geographical location the City of Lugo has a lot of attractions, both cultural and touristic.

Historical sites near Lugo di Romagna

- Francesco Baracca Museum (WWI Pilot)
- Aeronautical museum of Rimini
- Ravenna/Rimini sea and attraction park (min 30 km)
- Venezia (170km)
- Firenze (160)

Welcome!
